*The Pioneer Wholesale Grocers and Liquor
Merchants of Utah*

A FULL STOCK OF GROCERIES, LIQUORS
AND CIGARS ALWAYS ON HAND

The first house in Utah with Commercial Travelers to invade adjoining States and Territories, thus extending the commerce of Utah, never dealing in seconds of merchandise, but always in A1 standard goods. We never buy job lots, only dealing in first-class and fresh goods.

We are the Agents and Distributors for the Pabst Brewing Company's Products, having acted in this capacity for 34 years.

We also are sole Agents for Carl Upman Cigars, always the same, always uniform, and always first class. Have held this Agency for 26 years.

Next to this we are the distributors for the Natural Mineral Water Company, whose works are located at Soda Springs, Idaho. Their output "IDAN-HA" is now freely acknowledged to be the most healthful mineral water in the United States, as is attested by immense and unsolicited orders and applications for Agencies. It is bottled at an altitude of 6,000 feet above the level of the sea, and not in the swamps of Wisconsin, but at the Soda Springs in Idaho, celebrated as "BEER SPRING" by Washington Irving in his "Bonneville," by General John C. Fremont, by Halden and other eminent men, pioneers and writers.

This water is bottled as it flows from the 90 per cent Spring and by skillful appliances the carbonic acid gas of this 90 Per Cent and Mammoth Springs is united and there is procured that natural effervescence so healthful and pleasing, because nature's own production, at once a fine table and medicinal water, for the stomach, kidneys and healing to the mucous membrane of the intestinal canal, by reason of its high percentage of Magnesia, Lithia and Potash; also preservative of the tissues through the agency not of a chemical combination, but the Natural Carbonic Acid Gas, which penetrates every part of the human anatomy.

Respectfully,

THE FRED J. KIESEL CO., Ogden, Utah.
